IMPORTANT SAFETY MEASURES

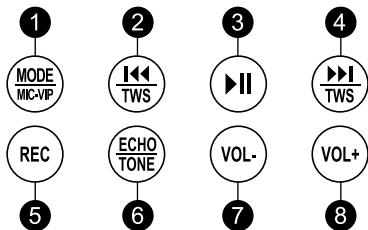

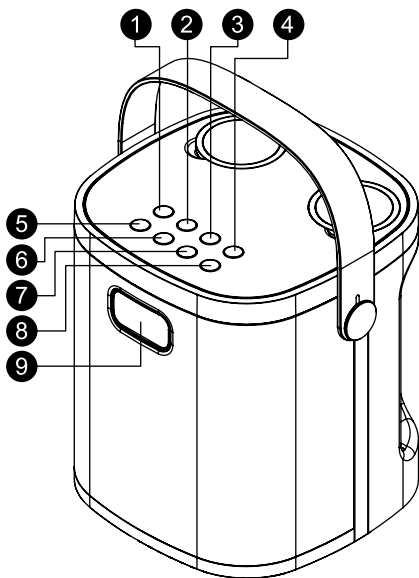

1. Do not place the system in a high-temperature, humid environment, let alone rain or a strong impact.
2. Do not open the back cover at will to prevent electric shock and other accidents.
3. If maintenance is required, please ask the company's maintenance station or professional maintenance personnel to handle it.
4. If the battery is improperly replaced, there is a danger of explosion, and it can only be replaced with the same type or equivalent type of battery.
5. In order to avoid charging failure, the original USB cable of this product must be used for charging. Accidents and machine damage caused by charging with other power cables will not be covered by the free warranty.
6. The product cannot be placed in a place with high temperature, exposure to the sun, or a fire source to prevent the battery from exploding or other dangers!

DISPLAY SCREEN

	In the status of reading the USB key and TF card, this symbol lights up as a pause; In the status of LINE input and FM, it is mute.
U/TF	It lights up when playing the USB key and TF card.
MIC	It lights up when the wireless microphone is turned on.
	When the USB/TF card is playing, the light is in the single cycle mode.
88:88	When the LINE input is selected, "AUX" is displayed; in FM radio mode, the frequency number of the current channel is displayed; during USB Key and TF card playback, the playing time of the track is displayed; and when playback of USB/TF is paused, "PAUSE" is displayed.
	When the light on this symbol starts to flash, it means that the battery is low and you should charge the device with an adapter. Otherwise, if you continue to play, it will enter standby and shut down. At the same time, the volume will also drop to 50% when the low battery light is displayed.
